

Eco-Friendly Diwali Awareness Campaign

The NSS volunteers organized an **Eco-Friendly Diwali Awareness Campaign** on **28th October 2024** as part of the Diwali celebrations. During the campaign, the volunteers explained the origin and cultural significance of Diwali, along with the traditional practices and customs associated with the festival.

They also highlighted the **impact of Diwali celebrations on animals**, emphasizing the distress and harm caused by firecrackers and loud noise-making devices. The volunteers encouraged students to adopt **eco-friendly and animal-friendly practices** to celebrate Diwali responsibly and sustainably.
