

World Environmental Day 05/06/2025

On the occasion of **World Environment Day (June 5th)**, the **NSS volunteers of Sardar Patel College** organized a meaningful tree plantation drive. The saplings were generously provided by the **GHMC office**, reflecting strong community collaboration and a shared commitment to environmental protection. This initiative not only enhances the greenery and beauty of the campus but also supports a healthier ecosystem. Trees play a crucial role in **purifying the air, conserving water, reducing pollution, and promoting biodiversity**, making this activity highly impactful.

At a time when the environment faces increasing threats such as **climate change, pollution, and deforestation**, taking action is more important than ever. By participating in the tree plantation drive, students contributed to a **greener and more sustainable future**. This collective effort demonstrates that even small actions, when carried out together, can create meaningful and lasting change. The event also served as an inspiring reminder of the responsibility we all share in protecting our planet.
