Ramya student of Bsc Applied Nutrition and Public Health, Botany and Chemistry batch 2019-2022, has started a small business of homemade chocolates in June 2021. Eventually she learnt more skills by experimenting, practicing and developing new recipes and introduced Cakes and many more desserts on my Instagram page @confecarnival. Her speciality is that she uses only the best quality premium ingredients and no harmful chemical preservatives in our desserts and everything will be made from scratch when she gets the order. Therefore she takes orders a day or 2 days in advance. It's a small scale venture (cloud kitchen) where she gets orders sparingly but hopes that it will grow in future. As she wanted to add her knowledge from education to her business, so she developed a few Low-carb, diabetic friendly, keto and gluten free recipes also to promote healthy desserts.

Here are a few images attached of her work.
